

I have found five problems in Guangdong Pavilion through the investigation
A The area in front of the pavilion will be very narrow because of building
B There is no place which the residents around there to have fun
C People can't walk to the pavilion from the street because of the gate over there
D There are no facilities in the square for people to search information about the pavilion
E There are no performance in this square, but just in the pavilion.

Finding problems--the inspiration of invention

The noisy construct area
Looking the Guangdong Pavilion in the street
In the Pavilion Out the Pavilion

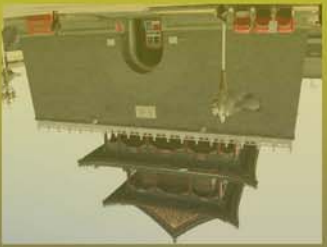

With the development of the city, lots of towers have been building in this place. It is very coldness at Guangdong Pavilion. Through my investigation, the residents around there and the travelers hope that there should be some facilities in the square which is in front of Guangdong Pavilion. It is convenient of them to rest and have some fun.

The actuality of Guangdong Pavilion--coldness, downfall

The base now

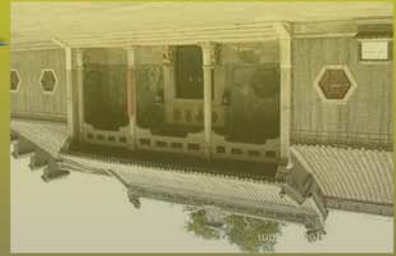

Guangdong pavilion is in the historic site in Tianjin. Its development worhs our attention.

Gulou

As the largest and most beautiful building in Tianjin--Guangdong Pavilion attracted many people in the last few years.

Guangdong Pavilion

The history of Guangdong Pavilion--a history site

MIRROR the culture

MIRROR the life

Background

Copying the stage in the pavilion. There are performances in particular days. It can not only develop the Chinese drama, but also can satisfy the need of the residents and travelers.

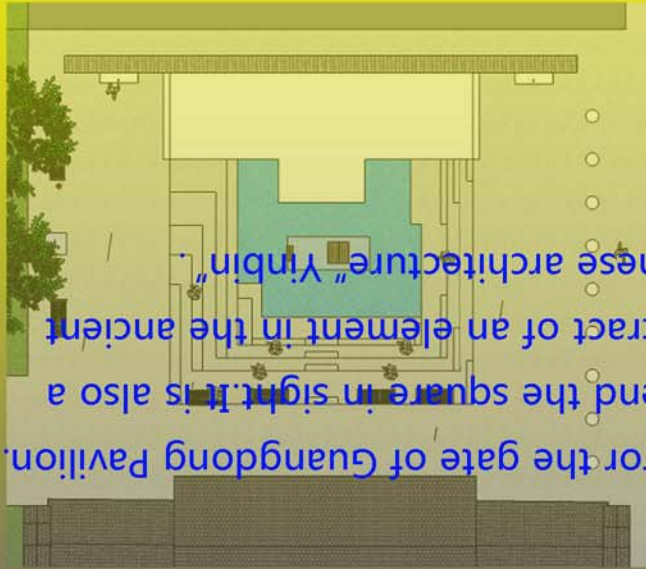

Screen

As a screen, it can play movie, drama, which can attract the attention of the people passing there.

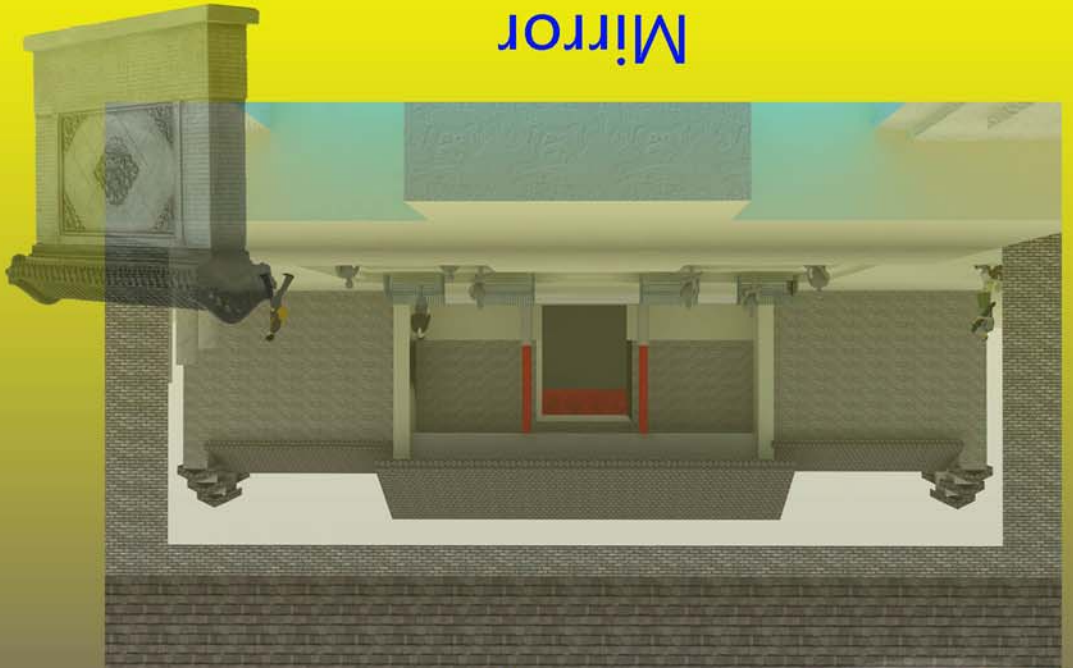

Site plan

Mirror the gate of Guangdong Pavilion, extend the square in sight. It is also a abstract of an element in the ancient Chinese architecture "Yinbin".

Solve these problems--a mirror

MIRROR the life

MIRROR the culture

Materials: Brick,Screen made of polyethylene,Tile,Chair made of steel columnation made of stone

Procedure:A Dig a square ;Pave the tile

B Build a wall made of brick;Put the "mirror" in the middle of the wall;Set the computer beside the wall.

C Remove the gate out of the square;Set nine columnation

D Set the chair on the square.

Budget:100thousand yuan

Through this mirror,those problems have been solved basically.It can provide a good environment for the residents around there and the travelers; It can increase the people's realization about the Guangdong Pavilion:It can also develop the Chinese drama culture.

Search facility

People can search the information about Guangdong Pavilion and Laochengxiang through the facilities beside the screen.
