

THE BAMBOO SPATIAL LABYRINTH

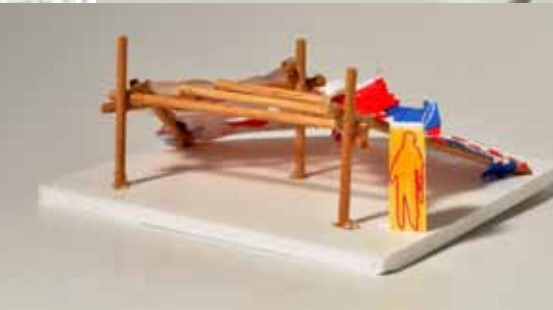

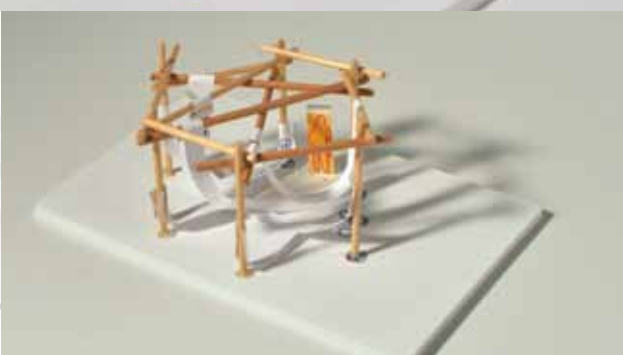

OUR PLAYGROUND PROPOSAL AIMS TO CREATE A LANDSCAPE TO BE DISCOVERED. IT IS A SHRUNKEN VERSION OF AN ARTIFICIAL, YET ORGANIC PLAYFUL GARDEN OR FOREST.

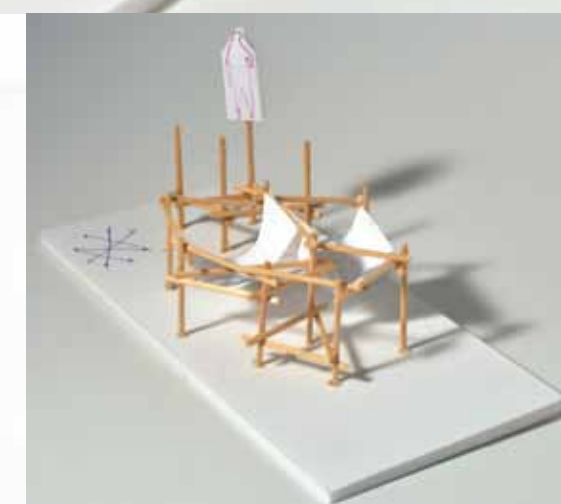

THE BAMBOO FOREST
THE GLADE

IT INVOLVES THE EXISTING TREES ON THE SITE, AS PART OF THIS FOREST.

IF YOU ARE AN ENQUIRER PERSON, YOUR KNOWLEDGE, OPINION, JUDGMENT AND MIND IS ON CONSTANT EVOLUTION.

THE PROJECT USES THE '2 BAMBOO POLE, AS MAIN CONSTRUCTION ELEMENT, TO CREATE THIS LANDSCAPE. WITH THIS ONE MATERIAL, WE CREATE WIDE RANGE OF DIFFERENT SPACES, LAND TYPES, GAMES, ETC. THIS SHOWS COMPLEXITY AND VARIABILITY TO CHILDREN. THE FOREST THEN GETS TO GROW, AND NEW NATURE, MATERIALS START TO APPEAR: WE CHOSE 3' EUCALYPTUS LOGS, TIRES AND LEAF ROOF PANELS AS MAIN GENERA.
